

Mosaic® Panel System

Integral Graphics With Seamless Look

exhibiting solutions

The Ultimate In Versatility: Mosaic® Panel System

Unlimited Design Possibilities

Mosaic gives you unmatched versatility. It has a variety of panel shapes, sizes, and surfaces that are all compatible and interchangeable so you can create an exhibit that looks great and fits your unique needs.

Quick and Easy Set Up

Mosaic's universal connection systems allow for easy installation.

Graphics Attract Prospects

Get noticed with Skyline Genuine Graphics! From big, bold murals to backlit headers and signs, Skyline communicates your message in style with graphics that are built to last.

Mosaic is lightweight and packs small to save on exhibit operating costs like shipping, drayage and storage!

Universal Mosaic panels reconfigure to fit varying booth spaces.

Mosaic's side connection system gives graphic panels a continuous, seamless look that doesn't interrupt your message.

1 Precision-fit panels

Mosaic panels are constructed to achieve absolute 90° corners so panels align perfectly without gaps.

2 Seamless look

Our unique connection system is hidden below the panel surface for a clean, seamless look.

3 Built-in counter

Add surface for displaying products or taking leads. Optional locking access doors provide secure storage.

Universal Mosaic panels allow you to reconfigure your exhibit to fit your needs and add on as your exhibit space grows.

4 Backlit graphics

Attract attention! Graphic panels can be backlit to highlight your name or message.

5 3D and stand-off graphics

Add interest and depth with 3D graphics. They provide a custom look and are easy to change out.

6 Product merchandising

A variety of accessories like shelving, peg bars and racking are available for displaying product.

What about your ideas?

invent

Versatile Mosaic creates custom counters, functional kiosks, secure storage areas and accommodates stand-off graphics.

Mosaic panels connect directly to Skyline's Tube Ultra modular exhibit system to create built-in tables and counters.

The Widest Selection of Panel Shapes, Sizes, and Surfaces

Mosaic and Mosaic Plus offer a family of compatible panels to achieve any design objective.

Graphics: Digital graphics of all types – murals, text signs, 3D stand-off logos.

Laminates: Hundreds of textures and colors available to fit any look.

Fabrics: Perfect for detachable graphics. Multiple styles and dozens of colors available.

Choose Lightweight Mosaic or Structural Mosaic Plus

Mosaic panels have a durable aluminum frame and are ultra-lightweight. Mosaic Plus panels have a thin layer of steel beneath the panel surface for more structural applications.

Panels	Flat	22.5° Curve	90° Curve
13.5" (34.3 cm)			
23" (58.4 cm)			
39.25" (99.7 cm)			
46" (116.8 cm)
